

Meadowview Homes

THE YEWS, MILL STREET, ROCESTER

LOCAL AREA

Four extremely high quality finished four bedroom detached properties situated on the edge of an established residential location. Conveniently located to all the village amenities that Rocester has to offer, including shops, school, pub and church and ideally placed next to the JCB Academy.

These four new build executive detached homes are situated on the edge of Rocester in a spacious plot that lies partly within a conservation area.

ROCESTER

In recent years, Rocester, which is the home of the headquarters of the world renowned excavator manufacturers JCB has undergone some significant changes. The substantial development of the village centre has seen the construction of new shops and facilities and there has also been additional residential development.

The site of The Yews, was once part of the garden of the property known as Millholme which is a listed building and which is now owned by the JCB Academy. This is located on the opposite side of Mill Street partly within the former Tutbury Mill, a late 18th century textile mill originally developed by Sir Richard Arkwright. The historical associations of the area however extend much further back as Rocester was an important settlement in Roman times and also on the north side of Mill Street opposite the development site is the site of a 12th century Augustinian Abbey.

Rocester is well placed for communications across the Midlands and beyond. The A50 trunk road has convenient links to both the M1 and M6 motorways, the market town of Uttoxeter, to which there are regular bus services and where there is a railway station, is approximately 5 miles away.

The market town of Ashbourne is a short drive away. Stoke-on-Trent, Derby, Lichfield and Birmingham are all accessible thus making the property suitable for commuters to those places. Rocester is a short drive from the Derbyshire Dales with notably Dovedale being nearby and thus has good access to a wide array of outdoor pursuits.

DIRECTIONS

If travelling from Ashbourne leave in a southerly direction along the A515 Sudbury/Lichfield road. Proceed for approximately 6 miles and at Cubley crossroads turn right signposted Marston. Follow this road for approximately 4 miles and upon entering Rocester proceed past the JCB Academy on the right hand side and the development site will be found immediately on the left.

From Uttoxeter and the A50, follow the B5030 towards Rocester, at the traffic island adjacent to JCB turn right over the bridge into Rocester along Churnet Row/ High Street. At the traffic island turn right onto Mill Street and travel along Mill Street where the site is situated on the right hand side before you reach JCB Academy.
